

Dear Data Users,

Data have the potential to improve citizen service delivery processes, help improve public infrastructure and transform economy. To unlock the potential of data for State development, we at [Tamil Nadu Open Government Data \(TNOGD\) Platform \(tn.data.gov.in\)](https://tn.data.gov.in) ensure uninterrupted flow of data from different sectors such as [Agriculture](#), [Education](#), [Commerce](#), [Health & Family Welfare](#), [Environment & Forests](#) etc. shared by various Departments of Government of Tamil Nadu.

We also publish related Blogs, Infographics and Mobile Apps. Government Department also marked datasets as high value datasets for innovative data-driven solutions.

If you are creating data related Apps, Visualizations, Infographics, etc. based on Datasets available, please contribute it on TNOGD Community Portal by informing us.

COMMUNITY →

TNOGD Community Portal helps
you to connect and collaborate with
other Data users. Keep visiting these
sections i.e. Visualizations, Blog
Posts, Infographics and Community
for latest updates. You can also
contribute your Visualizations, Blog
Posts and Infographics. The entries
are published after moderation by
the TNOGD PMU.

Share your experiences, stimulate new ideas,
and demonstrate the power of putting open
data to work.
